
REMIND

I will be using the remind text messaging application this year to send out reminders for projects, quizzes and test. Please follow the directions as posted in the science composition book.

Any problems with this application please feel free to email me at

eric.clark@comalisd.org

Please consider donating

Praising students goes a LONG way a cool and science-y way of doing so is hotlix.com. It is at this website that you will find chocolate covered grasshopper, candy coated scorpions or flavored larvets. You guessed it for human consumption...YUM. If you would consider donating a box or more to me so I can provide children with rewards that will last a lifetime. Thanks

If that is way too gross for you and you wish to help out in the classroom another way, consider these opportunities:

Paper towels	rabbit food
extra glue sticks	classroom markers
map pencils	glade plugins(PLEASE)

Daily supplies NEEDED

1. 3 ring binder
2. Pencils and Pens
3. Map pencils and crayons
4. GLUE STICKS
5. science folder (pocket folder)

Welcome to 6th Grade Science

In class we strive to make science come alive!

About me: Mr. Clark

I have been teaching science for 28 years. I am the SVMS soccer and X-country coach.

I have two girls. Devin is a track/cross country coach for University of Tulsa. Cassidy works for the Christians @ Tech organization in Lubbock.

Mrs. Clark is also a teacher at SVMS.

Our academic day and bell schedule:

1st period: 6th grade science	8:15 - 9:10
2nd period: Conference	9:15 - 10:10
3rd period: 6th grade science	10:15 - 11:10
Lunch	11:10 - 11:40
4th period: 6th grade science	11:45 - 12:50
5th period: virtual class	12:55 - 1:50
6th period: 6th grade science	1:55 - 2:50
7th period: 6th grade science	2:55 - 3:50

Our Red-Eared slider

TOP 10 for 6th grade science

1. Google classroom account
2. remind text app
3. frequent the website
4. weekly newsletter
5. homework completion
6. study for quizzes and tests
7. lab completion
8. respect
9. responsibility
10. show up

Website

The website will have any and all information regarding science class. The newsletter, projects, power point notes, login information etc. If you have a question

please email me. It is my goal to return your email within 24 hours.

Please continue to encourage responsibility and the completion of homework with your child.

If homework is not completed

The first day there is a 20% reduction, if another day is missed the reduction becomes 40% and if a student after 3 days does not

complete the homework a 0 will be recorded in the grade book.

Please check on the progress of your child in txconnect frequently due to the fact grades are input almost daily.

Grading Policy

Homework and daily work	25%
Quizzes and CA's	35%
Tests and Projects	40%

Request to retest???

What if a student does poorly on a test or quiz (below 70%)

If this should happen students may complete a request to retest document and retake a similar assessment after the directions/instructions are followed on the request to retest document.

This provides students with the ability to gain a better understanding of the subject matter by completing a variety of supplemental reading, note taking and written test corrections.

Cockroaches in the class YUM!

If you are absent, it will be your child's responsibility to get the work that was distributed during the absence. The best time to gather these notes, handouts, tests, quizzes etc. will be my tutoring time. A tutoring pass has been glued into the science composition book outlining the dates and times available. I can also email them upon request.
